## ImagePilot LS – entry level, all-in-one

The All-In-One digital radiography solution configured for smaller, lower volume private practice healthcare providers who want the simplest transition to digital and the ability to expand.

### Standard ImagePilot Features:

- All-In-One Design—Easiest for the staff to learn. Reduces IT support requirements.
- AutoPilot—Automatic image processing for unsurpassed consistency in image quality.
- Simplified Image Acquisition—Single click workflow increases productivity.
- Same User Interface At Every Workstation—learn only one system.
- Easy-To-Use And Feature Rich Viewing Screen—Image adjustments, annotations, measurements, inputs and outputs, customizable for basic to advanced users.

### ImagePilot LS highlights:

- Good Speed—40 cassettes per hour.
- Redundant Storage—mirrored 500GB hard drives (RAID 1).
- Distribute Workflow with Multiple Users—Two additional licenses (3 total inc. the server).
- Export Patient Images to CD—Better than film for transportability and viewing.
